

ARX Polyclonal Antibody

Cat No: HR1AP6108

For research use only

Overview

| | |
|-----------------------|---|
| Product Name | ARX Polyclonal Antibody |
| Source | Rabbit |
| Applications | WB,ELISA |
| Species Reactivity | Human,Mouse,Rat |
| Recommended Dilutions | |
| Immunogen | |
| Species | Rabbit |
| Storage | -20°C/1 year |
| Isotype | |
| Clonality | |
| Concentration | 1 mg/ml |
| Observed band | 55kDa |
| GeneID?Human? | ARX |
| Human Swiss-Prot No. | |
| Cellular localization | |
| Alternative Names | ARX; Homeobox protein ARX; Aristaless-related homeobox |
| Background | <p>aristaless related homeobox(ARX) Homo sapiens This gene is a homeobox-containing gene expressed during development. The expressed protein contains two conserved domains, a C-peptide (or aristaless domain) and the prd-like class homeobox domain. It is a member of the group-II aristaless-related protein family whose members are expressed primarily in the central and/or peripheral nervous system. This gene is thought to be involved in CNS development. Expansion of a polyalanine tract and other mutations in this gene cause X-linked mental retardation and epilepsy. [provided by RefSeq, Jul 2016].</p> |
