

ALS Polyclonal Antibody

Cat No: HR1AP6966

For research use only

Overview

Product Name	ALS Polyclonal Antibody
Source	Rabbit
Applications	WB,ELISA
Species Reactivity	Human
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	66kDa
GeneID?Human?	IGFALS
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	IGFALS; ALS; Insulin-like growth factor-binding protein complex acid labile subunit; ALS
Background	<p>insulin like growth factor binding protein acid labile subunit(IGFALS) Homo sapiens The protein encoded by this gene is a serum protein that binds insulin-like growth factors, increasing their half-life and their vascular localization. Production of the encoded protein, which contains twenty leucine-rich repeats, is stimulated by growth hormone. Defects in this gene are a cause of acid-labile subunit deficiency, which manifests itself in a delayed and slow puberty. Three transcript variants encoding two different isoforms have been found for this gene. [provided by RefSeq, Mar 2009],</p>
