

## Osteoglycin Polyclonal Antibody

Cat No: HR1AP5135

For research use only

### Overview

Product Name	Osteoglycin Polyclonal Antibody
Source	Rabbit
Applications	WB,ELISA
Species Reactivity	Human,Mouse
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	35kDa
GeneID?Human?	OGN
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	OGN; OIF; SLRR3A; Mimecan; Osteoglycin; Osteoinductive factor; OIF
Background	<p>osteoglycin(OGN) Homo sapiens This gene encodes a member of the small leucine-rich proteoglycan (SLRP) family of proteins. The encoded protein induces ectopic bone formation in conjunction with transforming growth factor beta and may regulate osteoblast differentiation. High expression of the encoded protein may be associated with elevated heart left ventricular mass. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Jan 2016],</p>
