

PIG-X Polyclonal Antibody

Cat No: HR1AP4320

For research use only

Overview

Product Name	PIG-X Polyclonal Antibody
Source	Rabbit
Applications	WB,IHC-p,ELISA
Species Reactivity	Human
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	26kDa
GeneID?Human?	PIGX
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	PIGX; Phosphatidylinositol-glycan biosynthesis class X protein; PIG-X
Background	<p>phosphatidylinositol glycan anchor biosynthesis class X(PIGX) Homo sapiens This gene encodes a type I transmembrane protein in the endoplasmic reticulum (ER). The protein is an essential component of glycosylphosphatidylinositol-mannosyltransferase I, which transfers the first of the four mannoses in the GPI-anchor precursors during GPI-anchor biosynthesis. Studies in rat indicate that the protein is translated from a non-AUG translation initiation site. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Oct 2009],</p>
