

# AIF1 Polyclonal Antibody

Cat No: HR1AP12222

For research use only

## Overview

Product Name	AIF1 Polyclonal Antibody
Source	Rabbit
Applications	WB,ELISA
Species Reactivity	Human,Rat,Mouse
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	16kDa
GeneID?Human?	AIF1 G1 IBA1
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	
Background	<p>allograft inflammatory factor 1(AIF1) Homo sapiens This gene encodes a protein that binds actin and calcium. This gene is induced by cytokines and interferon and may promote macrophage activation and growth of vascular smooth muscle cells and T-lymphocytes. Polymorphisms in this gene may be associated with systemic sclerosis. Alternative splicing results in multiple transcript variants, but the full-length and coding nature of some of these variants is not certain. [provided by RefSeq, Jan 2016],</p>
