

DUS26 Polyclonal Antibody

Cat No: HR1AP11751

For research use only

Overview

Product Name	DUS26 Polyclonal Antibody
Source	Rabbit
Applications	WB,ELISA
Species Reactivity	Human,Mouse,Rat
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	23kDa
GeneID?Human?	DUSP26 DUSP24 LDP4 MKP8 NATA1 SKRP3
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	
Background	<p>dual specificity phosphatase 26 (putative)(DUSP26) Homo sapiens This gene encodes a member of the tyrosine phosphatase family of proteins and exhibits dual specificity by dephosphorylating tyrosine as well as serine and threonine residues. This gene has been described as both a tumor suppressor and an oncogene depending on the cellular context. This protein may regulate neuronal proliferation and has been implicated in the progression of glioblastoma through its ability to dephosphorylate the p53 tumor suppressor. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Feb 2015],</p>
