

PLS1 Polyclonal Antibody

Cat No: HR1AP11113

For research use only

Overview

Product Name	PLS1 Polyclonal Antibody
Source	Rabbit
Applications	WB,ELISA
Species Reactivity	Human
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	34kDa
GeneID?Human?	PLSCR1
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	
Background	<p>cofactor:Calcium.,function:May mediate accelerated ATP-independent bidirectional transbilayer migration of phospholipids upon binding calcium ions that results in a loss of phospholipid asymmetry in the plasma membrane. May play a central role in the initiation of fibrin clot formation, in the activation of mast cells and in the recognition of apoptotic and injured cells by the reticuloendothelial system.,function:May play a role in the antiviral response of interferon (IFN) by amplifying and enhancing the IFN response through increased expression of select subset of potent antiviral genes. May contribute to cytokine-regulated cell proliferation and differentiation.,induction:By phosphorylation by PKC. Induced by INFB1 in response to a viral infection.,online information:Scramblase entry,PTM:Known to be palmitoylated at one, yet undefined, site.,similarity:Belongs to the phospholipid scramblase family.,subunit:Interacts with ABL.,tissue specificity:Expressed in platelets, erythrocyte membranes, lymphocytes, spleen, thymus, prostate, testis, uterus, intestine, colon, heart, placenta, lung, liver, kidney and pancreas. Not detected in brain and skeletal muscle.,</p>
