

AMOT Polyclonal Antibody

Cat No: HR1AP10501

For research use only

Overview

Product Name	AMOT Polyclonal Antibody
Source	Rabbit
Applications	WB,ELISA
Species Reactivity	Human,Mouse
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	119kDa
GeneID?Human?	AMOT KIAA1071
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	
Background	<p>angiotenin(AMOT) Homo sapiens This gene belongs to the motin family of angiotenin binding proteins characterized by conserved coiled-coil domains and C-terminal PDZ binding motifs. The encoded protein is expressed predominantly in endothelial cells of capillaries as well as larger vessels of the placenta where it may mediate the inhibitory effect of angiotenin on tube formation and the migration of endothelial cells toward growth factors during the formation of new blood vessels. Alternative splicing results in multiple transcript variants encoding different isoforms. [provided by RefSeq, Jul 2008].</p>
