

Villin Polyclonal Antibody

Cat No: HR1AP9576

For research use only

Overview

| | |
|-----------------------|---|
| Product Name | Villin Polyclonal Antibody |
| Source | Rabbit |
| Applications | WB,ELISA |
| Species Reactivity | Human,Mouse,Rat |
| Recommended Dilutions | |
| Immunogen | |
| Species | Rabbit |
| Storage | -20°C/1 year |
| Isotype | |
| Clonality | |
| Concentration | 1 mg/ml |
| Observed band | 90kDa |
| GeneID?Human? | VIL1 VIL |
| Human Swiss-Prot No. | |
| Cellular localization | |
| Alternative Names | villin 1 |
| Background | villin 1(VIL1) Homo sapiens This gene encodes a member of a family of calcium-regulated actin-binding proteins. This protein represents a dominant part of the brush border cytoskeleton which functions in the capping, severing, and bundling of actin filaments. Two mRNAs of 2.7 kb and 3.5 kb have been observed; they result from utilization of alternate poly-adenylation signals present in the terminal exon. [provided by RefSeq, Jul 2008], |
