

## RELT Polyclonal Antibody

Cat No: HR1AP8902

For research use only

### Overview

|                       |  |
|-----------------------|--|
| Product Name          | RELT Polyclonal Antibody   |
| Source                | Rabbit   |
| Applications          | WB,IHC-p,IF,ELISA  |
| Species Reactivity    | Human,Mouse  |
| Recommended Dilutions |  |
| Immunogen             |  |
| Species               | Rabbit   |
| Storage               | -20°C/1 year   |
| Isotype               |  |
| Clonality             |  |
| Concentration         | 1 mg/ml  |
| Observed band         | 46kDa  |
| GeneID?Human?         | RELT   |
| Human Swiss-Prot No.  |  |
| Cellular localization |  |
| Alternative Names     | RELT; TNFRSF19L; Tumor necrosis factor receptor superfamily member 19L; Receptor expressed in lymphoid tissues   |
| Background            | <p>RELT tumor necrosis factor receptor(RELT) Homo sapiens The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor is especially abundant in hematologic tissues. It has been shown to activate the NF-kappaB pathway and selectively bind TNF receptor-associated factor 1 (TRAF1). This receptor is capable of stimulating T-cell proliferation in the presence of CD3 signaling, which suggests its regulatory role in immune response. Two alternatively spliced transcript variants of this gene encoding the same protein have been reported. [provided by RefSeq, Jul 2008].</p> |
