

GPR123 Polyclonal Antibody

Cat No: HR1AP8870

For research use only

Overview

Product Name	GPR123 Polyclonal Antibody
Source	Rabbit
Applications	IF,ELISA
Species Reactivity	Human
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	kDa
GeneID?Human?	GPR123
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	GPR123; KIAA1828; Probable G-protein coupled receptor 123
Background	<p>adhesion G protein-coupled receptor A1(ADGRA1) Homo sapiens This gene encodes a protein that belongs to the adhesion family of G-protein-coupled receptors. Members of this family function in several sensory systems and regulate blood pressure, immune responses, food intake and development. A similar protein in rodents is thought to play a role in in the regulation of neuronal signaling pathways. Several alternatively spliced transcript variants of this gene have been described, but the full-length nature of some of these variants has not been determined. [provided by RefSeq, Mar 2014].</p>
