

CD306 Polyclonal Antibody

Cat No: HR1AP9508

For research use only

Overview

Product Name	CD306 Polyclonal Antibody
Source	Rabbit
Applications	WB,ELISA
Species Reactivity	Human
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	20kDa
GeneID?Human?	LAIR2
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	LAIR2; CD306; Leukocyte-associated immunoglobulin-like receptor 2; LAIR-2; CD306
Background	<p>leukocyte associated immunoglobulin like receptor 2(LAIR2) Homo sapiens The protein encoded by this gene is a member of the immunoglobulin superfamily. It was identified by its similarity to leukocyte-associated immunoglobulin-like receptor 1, a membrane-bound receptor that modulates innate immune response. The protein encoded by this locus is a soluble receptor that may play roles in both inhibition of collagen-induced platelet aggregation and vessel formation during placental implantation. This gene maps to a region of 19q13.4, termed the leukocyte receptor cluster, which contains 29 genes in the immunoglobulin superfamily. Alternatively spliced transcript variants have been described for this gene. [provided by RefSeq, Sep 2013],</p>
