

ILKAP Polyclonal Antibody

Cat No: HR1AP3732

For research use only

Overview

Product Name	ILKAP Polyclonal Antibody
Source	Rabbit
Applications	WB,IHC-p,IF,ELISA
Species Reactivity	Human,Mouse,Rat,Monkey
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	45kDa
GeneID?Human?	ILKAP
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	ILKAP; Integrin-linked kinase-associated serine/threonine phosphatase 2C; ILKAP
Background	<p>ILK associated serine/threonine phosphatase(ILKAP) Homo sapiens The protein encoded by this gene is a protein serine/threonine phosphatase of the PP2C family. This protein can interact with integrin-linked kinase (ILK/ILK1), a regulator of integrin mediated signaling, and regulate the kinase activity of ILK. Through the interaction with ILK, this protein may selectively affect the signaling process of ILK-mediated glycogen synthase kinase 3 beta (GSK3beta), and thus participate in Wnt signaling pathway. [provided by RefSeq, Jul 2008].</p>
